The Roman Account (here omitted) is (till Anno 1700) 10 days before the English Account, so that our 1. day is their 11. day, and our last day their 10. day.

Each month's first day the Romans Kalends name,
March, May, October, July six Nones claim;
The rest but four: each month contains eight Ides,
Thence from the Kalends style all days besides:
Count backwards still; thus April's fourteenth day,
The eighteenth of May's Kalends style you may.

The Uſe of this Table with a Caution.

Do but obſerve in the fifth Column of the Almanack the hours and minutes of full-ſea at London-bridge over againſt each ſeveral day of the month, to or from which time there noted adde or ſubſtract ſuch hours and minutes as this Table above doth appoint, and the total of the one, or remainder of the other, ſhall be the time of full ſea at any of theſe places aboveſaid, ſalved the Anticipation or protraction of time, which by the Winds, Land-flouds, or Moons latitude, may be cauſed, which may be an hour, or ſometimes more or leſs error, according to their ſite and quantity; a thing very remarkable of Seamen when they paſs by any Sands, or over any Bar, or Haven, or ſuch like.
